

## Can An Intellectual Be President?

GOP scoffs. Monopolists  
merely hire brains-  
recently from India.

DEM's have flirted:  
Think Stevenson,  
defeated by the wit

of I LIKE IKE!  
Pol Pot's right hand  
was bloody egghead, no?

& visionary Al Speer never  
sighted slaves puking over  
their machines & dying.

Eric Hoffer warned against  
intelligentsia leading where  
politicians best for need-

ing votes. Works unless  
the fix is in-as it has been.  
So, we're left nowhere. Any-

way Neocons are intellectuals,  
professors. Case closed there.

(The death of your child  
of no moment against  
their theory.)

The mathematician  
hears the music  
of the spheres

in the patterned stacking  
of bodies. The philosopher  
glimpses an aesthetic to sustain.

Let's clean the politics and just let  
academics bullshit each other's  
ears off in usual, harmless fashion.
